SUMMARY

Full-Stack Software Developer with over 4 years' experience, specialized in React.js, JavaScript, Typescript, HTML/CSS, Tailwind CSS, Node.js, with an objective to develop websites and applications that are client-driven while ensuring that they are straightforward and engaging for the end user.

I intend to use my design, development and other skills while continuously advancing my skill set through additional programming and career development to remain at the forefront of an ever-changing technology landscape. In my free time, I am continuously learning new technologies and building projects, I also like to read fiction and travel.

SKILLS & CORE COMPETENCIES

• JavaScript	• Tailwind CSS	• MongoDB / SQL	• Next.js / Gatsby.js
• React.js	• Redux / Toolkit	• React Native	• Java / Python
• TypeScript	• Node.js	• Docker / Containers	• AWS / Heroku
• HTML / CSS	• Git management	• Cloud Hosting	• Data Engineering
